FORMULA - =VLOOKUP(B2,$R$3:$S...

Kurt John Ibloguin
10:02 PM Yesterday

This retrieves the commission rate for each product category from the reference table.

FORMULA - =SUM(H2:H61)

Kurt John Ibloguin
10:02 PM Yesterday

This calculates the total revenue generated from all sales transactions.

FORMULA - =IF(H2>=500,"High Sale...

Kurt John Ibloguin
10:02 PM Yesterday

This IF function categorizes sales based on revenue. Sales ≥ 500 are labeled High Sale, otherwise Low Sale.

ANALYTICS SUM... - Grand Total

Joel Patrick Balsa
8:58 PM Yesterday

QA Check: I have verified that these Pivot Table totals match the raw data in the 'MAIN DATA SETS' sheet. I have also filtered out blank/zero values to ensure the summary is clean for the Dashboard Designer.

ANALYTICS SUM... - Product Categ...

Joel Patrick Balsa
8:57 PM Yesterday

Observation: The Accessories and Kitchen categories are currently our strongest drivers for revenue. I have included a filter for 'Salesperson' so we can see which team members are most successful in these categories.

ANALYTICS SUM... - Myadzyel

Joel Patrick Balsa
8:57 PM Yesterday

Analysis: Myadzyel is our highest-performing region, primarily driven by high-value sales in the Accessories category. This accounts for a significant portion of our $53,845.99 total revenue.
