AI TOOL REPLIT WEBSITE PROMPT

In fulfillment of the requirements for the

21st Century IT Skills
Elective Subject

Submitted by:

Undaloc, Ruvi Anne A.

Class Schedule: MW 6:00 PM to 7:30 PM

Submitted to:
Gabriel I. Quibod
Instructor

April 2026
Ateneo de Davao University, Roxas Ave, Poblacion District, Davao City, 8000 Davao del Sur

INITIAL PROMPT

This was my initial prompt done on Replit:

I. Create a one-page website for a personal portfolio.

Include sections:

I. Name - Anne

II. Bio - College Student getting by

III. Skills - critical thinking, problem solving, teamwork

IV. Projects - to be added

V. Contact - rundaloc@addu.edu.ph

Use a clean modern design with the color scheme of #f08e9a and #f8bfbd Make it simple, responsive, and visually appealing.

REFINEMENT PROMPTS

The following are my refinement prompts:

I. Make the bio: just a college student getting by, welcome!

In What I Bring, make:

Critical Thinking - Understanding situations with analysis, reaching an approach that benefits everyone holistically

II. Make changes in the following:

Under 'My Work', remove "Projects are on their way --- check back soon for updates!" Only put "Coming Soon"

Under 'Get In Touch', change "Have a question or want to connect? Drop me a message anytime." To "Send me an email here! Work hours are 8:00 AM to 7:00 PM."

III. Add "My", like "My work ours are 8:00 AM to 7:00 PM."

IV. Remove the --- in all sections

V. Remove the "A" from the icon in the introductory part

VI. Is it possible to fit all sections in one page? Without scrolling?

VII. can you change the layout to make it easier on the eyes?

VIII. can you make the boxes shorter in the skills section and remove the box in projects? Also make the font color of "Coming Soon" match the color scheme

IX. can you make the box of the skills section shorter and bring the "Coming Soon" of the projects section at the center?

Who I Am
Hi! I'm Anne, a college student navigating classes, deadlines, and everything in between. I'm passionate about learning, growing, and making the most out of every opportunity that comes my way. When I'm not buried in coursework, I'm working on developing skills that will carry me forward — both personally and professionally.

FINAL REFLECTION

Certainly, technology has come a long way. To think that one could create a website of their own portfolio with just several or even few statements, human innovation is incredible. What excellently worked was being specific in the prompt, adding details such as hex codes for the color scheme of the website and specifying the sections. Moreover, the small details needed manual fixing, such as the description under each section, depending on how the site owner wishes it to be. Although, I do acknowledge that generative artificial intelligence prompting is amazing, I mean it, really; but I would also like to acknowledge that it is reliant on massive data centers that take up large lands and freshwater, it is harmful to our environment, it is also one of the reasons why I have been delaying doing my schoolworks for this subject; I am aware that the academe is embracing the use of artificial intelligence, but I do not condone generative artificial intelligence particularly. Now, I do not know your stance on this sir, but regardless, I do not blame you as I am aware that you are doing your job, and with the schoolworks given by this elective subject, I know that artificial intelligence is incredible, it just makes me sad that it comes at the cost of the environment. Thus, I will not be doing this again, though overall the experience was interesting and fun.
